PROFESSIONAL SUMMARY

Penetration Tester with 3 years of hands-on experience across Application, Network, API, and Mobile (Android) Penetration Testing. Skilled in identifying OWASP Top 10 and API vulnerabilities using Burp Suite and OWASP ZAP, validating exploitation with Metasploit, and mapping attack techniques to the MITRE ATT&CK framework. Experienced in testing enterprise infrastructure including physical/virtual servers (Dell PowerEdge, HP ProLiant), network devices (switches, routers, MikroTik, firewalls, endpoint security tools), and Active Directory (ADDS) / Windows Server environments. Strong problem-solving and troubleshooting ability sharpened through active CTF participation (TryHackMe, Hack The Box, Bugcrowd) and daily hands-on work in Kali Linux and Linux environments. Comfortable documenting findings with risk ratings, proof-of-concept, and remediation guidance, and collaborating with development and infrastructure teams to validate fixes.

TECHNICAL SKILLS

Penesting Tools	Burp Suite, OWASP ZAP, Metasploit, Nmap, Nessus, Nikto, Kali Linux
Frameworks	OWASP Top 10, MITRE ATT&CK, secure coding practices
Application / API / Mobile	Web application VAPT, REST API security testing, Android application VAPT
Network & Infrastructure	Switches, routers, MikroTik, firewalls, endpoint security tools; Dell PowerEdge & HP ProLiant servers
Identity & Virtualization	Active Directory Domain Services (ADDS), Windows Server, Proxmox, VMware Workstation, VMware ESXi
Scripting & Automation	Python, Bash
DevSecOps / CI-CD	SonarQube (SAST), OWASP Dependency Check, Jenkins, Git, Trivy, Docker, Kubernetes
Monitoring & Cloud	OSSEC, Splunk, Grafana, Prometheus AWS, GCP
Practice & Environments	CTF challenge solving (TryHackMe, Hack The Box, Bugcrowd), Kali Linux, Linux systems troubleshooting

WORK EXPERIENCE

TeleGlobal Communications Private Limited, Pune

Sept 2023 – Present

Application Security Engineer / Network Engineer (Penetration Testing)

- Performed Application Penetration Testing on web and Android mobile applications, identifying OWASP Top 10 vulnerabilities including SQL Injection, XSS, IDOR, and broken authentication.
- Executed API Security Testing on REST APIs to uncover authentication, authorization, and data exposure issues.
- Conducted Network Penetration Testing across switches, routers, MikroTik devices, firewalls, and endpoint security tools, identifying configuration and authentication weaknesses.
- Tested and hardened physical/virtual server infrastructure (Dell PowerEdge, HP ProLiant) and Active Directory Domain Services (ADDS) / Windows Server environments for privilege escalation and access control gaps.
- Built and maintained offensive-security lab and test environments using Kali Linux, Proxmox, VMware Workstation, and VMware ESXi.
- Validated exploitation using Metasploit and mapped attack paths to the MITRE ATT&CK framework to prioritize remediation.
- Documented findings in detailed VAPT reports with risk ratings, proof-of-concept, and remediation recommendations; collaborated with development and infrastructure teams to validate fixes.
- Automated recurring testing and reporting workflows using Python and Bash; integrated SonarQube and OWASP Dependency Check into Jenkins CI/CD pipelines.

PROJECTS

Web Application VAPT — DVWA (*Burp Suite, ZAP, Metasploit, OSSEC*) — Full-scope penetration test against OWASP Top 10 risks with detailed PoC and remediation report.

DevSecOps Pipeline Security — Netflix Clone (*AWS, Jenkins, SonarQube, Trivy, Kubernetes*) — Secure CI/CD pipeline with integrated SAST and container scanning, deployed on AWS/Kubernetes.

CERTIFICATIONS

- Offensive Security and Ethical Hacking (Blackhat)
- CompTIA Ethical Hacking
- Certified Ethical Hacker (CEH-Master) – Pursuing
- TryHackMe / Hack The Box / Bugcrowd – Active Participant

EDUCATION

- PG Diploma, IT Infrastructure & Systems Security – CDAC, Pune (2023)
- B.E. – MGM Jawaharlal Nehru Engineering College, Aurangabad

Communication • Analytical & Problem-Solving • Troubleshooting • Cross-Functional Collaboration • Independent & Team-Based Work
